## PROJECTS

### *HandPaintedCoconuts.com*

June 2017

- Created a CRUD application for administrators to manage coconuts for sale
- Implemented a shopping cart application that allowed users to select multiple types of items before checkout
- Consumed APIs for shipping calculation and payment processing (EasyPost and Stripe)

### *EWeek2018.com*

August 2017

- Created a user signup process that allowed people to retrieve their QR code for attending events
- Configured admin registration to display event and signup statistics based on the needs of the UF E-Week directors
- Developed interpersonal skills by meeting the needs of the client while working with the a team of front end developers

### *HandsOnArtGallery.com*

May 2018

- Created a custom business solution for Hands On Art Gallery and Studio with a Laravel back-end
- Utilized Laravel's prebuilt registration system to protect against multiple security threats and implement admin authorization
- Leveraged the MVC paradigm to create sustainable modules that could be reused by multiple routes throughout the application

### *Markup Websites*

- [MatthewBluestein.com](http://MatthewBluestein.com)
- [CleanSlateConsulting.com](http://CleanSlateConsulting.com)

March 2016

January 2018

### *Hackathons*

- Swamp Hacks
- Hack FSU

2017, 2018

2017, 2018

## INVOLVEMENT

### Service Chair

October 2016 - Present

- Organized a Car Smash Egg Smash, Valentine's day sale, 5k run, and multiple food fundraisers
- Raised over \$5000 during my time as service chair for S.O.S. Children's Villages

### Volunteer

September 2014 - Present

### *Vineyard Church, Cape Coral, FL*

- Set up the main ballroom, prepared and served food to over 100 people each week
- Organized and distributed \$2000 worth of groceries to families in need weekly

## WORK EXPERIENCE

### Waiter, Cashier, Cook and Dishwasher

November 2014 - Present

### *Paradise Deli, Cape Coral, FL*

- Learned interpersonal and leadership skills by managing multiple positions and training new employees
